### Finishing

Leave 20" of yarn before you cut. Thread a yarn/darning needle with the tail. \*Insert the needle into 2 stitches, purl-wise. Leave the stitches on the needle, pull yarn tight, but loose. Insert the needle from left to right into the first stitch & pull yarn tight, but loose. Remove that stitch from the needle. Continue from \* until you have run out of stitches. Work the tail into the inside of the sock, trim if needed.

Knit the second sock all the same.
